

Spot It Card Game

Pirate theme

31 printable cards

Game rules

Rules:

Divide the cards among all the players, face down, keeping the last one which you will place in the center, face up. When all the players are ready, the starting signal is given so that each player can turn over the first card in his pile and look for an element in common with those on the central card. As soon as a player finds an identical element, he names it, places his card on top of the central card and turns over a new card on his pile. The goal is to be as quick as possible to get rid of all their cards!

Variation:

You can also reverse the game by placing all the cards in the center, face down, except for one card that will be dealt to each player, face up. At the start, the middle card is turned over and all players look for the element in common with the middle card on their card. As soon as a player finds one, he/she names it, takes back the center card and turns over a new card on the pile. The goal now is to be the fastest and have the most cards at the end of the game.

Tips:

If you are lucky enough to have a laminator, feel free to laminate the pages so you can play even longer with your game.
